

Zsolnay Cultural Quarter in Pécs

Micro:bit robots in Zsolnay Cultural Quarter

On 22.04.2017 We went to .the Zsolnay Cultural Quarter to make robots from micro:bit. There were a lot of children, who wanted to meet with micro:bit. First time they didn't know, what is it, then they tried to program it with PXT editor and they loved it.

Every kid brought us recyclable materials from which we built robots. The robots were controlled by micro:bits

Name:	Zsolnay Cultural Quarter
